

A wide-angle photograph of a sunset over the ocean. The sun is a small, bright orange disk on the horizon, casting a long, shimmering reflection across the water. The sky is filled with large, dark, textured clouds, some of which are illuminated from below by the setting sun, creating a mix of orange, pink, and blue hues. In the lower right foreground, a small white sailboat with a single mast and a dark sail is visible on the water. The overall mood is serene and dramatic.

*Dear friends
of pogo sailing!*

KEA is momentarily waiting in beautiful Vannes in Brittany to continue its journey from Denmark to Spain and Portugal after January 9th. Once again its the plan to explore and enjoy the waters between Porto, Lisbon and the Algarve between January and April 2024, and - depending on the weather, to take a trip from Lisbon or Porto to Madeira and back.

Then we head back north to Denmark and Sweden. Depending on the weather, we will practice safe sailing along the coast of southern Portugal and improve our skills in handling this sporty, comfortable yacht. If you are interested in escaping the gray everyday life for a few days, write to pogo36@fastdownwind.com and tell me which period would be interesting for you and I will make you a good offer! Another adventure waits! The number of satisfied customers is growing!

*I wish you a happy new
year in 2024!*
